

High-performance noise suppression technology provides industry-leading voice clarity

Introducing the **DELTA™** Lapel Microphone. Noise suppression technology combined with a compact, palm-sized speaker mic for everyday use in noisy environments.

DELTA™ features high-performance sound quality and user-friendly features at a very competitive price, making it ideal for daily use in many high noise environments. **DELTA™** includes an accessory jack for pairing with radio monitoring earsets, such as CavCom's complete line of RadioGear® products. The slim and ergonomic profile is lightweight, easy to use, and comfortable to wear.
