Radio communications aren’t a luxury – they’re often a necessity, usually in the most hazardous environments known to exist. If you deal with HIGH NOISE and/or wear a RESPIRATOR then you likely struggle with communications. CavCom’s Talk Through Your Ears® technology ingeniously combines hearing protection (up to NRR 32) with in-ear microphone and speakers for seamless voice communication, regardless of noise or PPE. Choose between custom fit or universal style earpieces to fit your specific needs – use your existing radio. ‘Talk Through Your Ears,’ not your NOISE!

Talk Through Your Ears® Technology for High Noise and Respirator Environments

Radio communications aren’t a luxury – they’re often a necessity, usually in the most hazardous environments known to exist. If you deal with HIGH NOISE and/or wear a RESPIRATOR then you likely struggle with communications. CavCom’s Talk Through Your Ears® technology ingeniously combines hearing protection (up to NRR 32) with in-ear microphone and speakers for seamless voice communication, regardless of noise or PPE. - Any 2-Way Radio
- Any Respirator
- Up to NRR 32
- **NEW:** Voice-activated/hands-free option

Protect: (up to) NRR 32; ideal for double hearing protection requirements.

Listen: volume limited speakers deliver the safest and clearest radio audio to both ears.

Talk: earpiece microphone transmits voice from inside the ear canal for clear speech in HIGH NOISE and while wearing RESPIRATORS.
Choose your Fit

CavCom Talk Through Your Ears® earsets are available in four unique styles: Custom Acrylic, Custom Silicone, Omni or Quad Universal. Designed for Maximum Noise Reduction (Up to NRR 32), all day comfort and the toughest environments.

Versatility

- Multiple configurations for your environment
- Use with any type of respirator
- Works with any 2-way radio
- INTRINSICALLY SAFE control unit available
