

BIG NEWS FOR LIGHTWEIGHT COMMS

Joining our *Alpha™* to *Delta™* lineup of noise-cancelling speaker microphones, CavCom is pleased to announce our newest option: [Echo™](#) - a small but sturdy lapel microphone that eliminates ambient noise, big time. Weighing just one ounce, our noise-cancelling technology delivers clear voice pick-up in any noise level and easily secures to T-shirt collars with a 360° rotating clip. Compatible with a wide variety of radios, and a perfect match for [RadioGear®](#) earsets, IP54 *Echo™* ensures reliable two-way communication with less bulk, more comfort and supreme clarity. To learn more, [contact CavCom](#) for assistance with all your radio communication and hearing protection needs.
