

BEST IN-SUIT COMMUNICATION AVAILABLE

Talk Through Your Ears® provides clear radio transmissions, even in the harshest environments. CavCom's specially engineered earpieces combine an in-ear microphone and speakers to offer clear voice communication, regardless of PPE. Hear and be heard clearly on your two-way radio with this lightweight, industry-tough communication system.

ANY RADIO. ANY RESPIRATOR. ANY SUIT.

Talk Through Your Ears® has never sounded better.

- Microelectronics provide enhanced speech clarity
- Dual ear reception maximizes listening capabilities
- Ultra-lightweight - less than 9 ounces
- Choose custom molded or universal fit earsets
- Powered by your radio - batteries not required
- Large PTT button makes transmitting quick and easy
- Works independently from your SCBA ensemble
- Communicate with or without respirator or suit

If you need new two-way radios to complement your new system, CavCom offers a variety of makes and models of two-way radios and will help you choose one that fits your needs (and your budget).

Companies Choose CavCom as their **Hearing Protection and Communication Systems Provider**

- **EXCELLENT CUSTOMER SERVICE:** CavCom customer success is our #1 priority. Each customer has a dedicated account manager to assist in long term program management and growth.
- **COMPLETE PRODUCT LINE:** We understand the value of clear communication AND the importance of effective hearing protection and have developed solutions to meet the needs and budget for your organization.
- **FAST TURNAROUND:** Typical response time on customer inquiries, quotes, and repairs is one business day and most in stock orders ship within two business days.
- **ON-SITE SERVICES – WE COME TO YOU:** Professional field services staff are available to travel to customer locations to provide support and services (including: ear impressions, radio programming, communication evaluation, general customer support and more!).
- **EXPERIENCE:** CavCom has over 25 years experience working with industries to improve two-way communication and hearing protection. Our staff includes professional audiologists, CAOHC-certified specialists and two-way radio experts, all with years experience working directly with industry, emergency response, and government/military applications.
