## Radio Monitoring Earsets

# Lightweight Earsets for Two-Way Radio Monitoring

**Tired of radio speaker mics squawking throughout your workplace? Keep it calm with LiteGear™!**

CavCom developed *LiteGear™* earsets for workers who want a lightweight and reliable way to carry on private radio communications in the workplace without annoying others. The earsets plug into your radio lapel speaker microphone, allowing you to hear any incoming communication, no matter where you work. *LiteGear™* has eartip options to accommodate all sizes and shapes of ears. So light you forget you've got it in your ear.

### Universal Fit .....

- Available for left or right ear
- Selection of eartips to accommodate different sizes and shapes of ears
- Clothing clip provided

### Compatibility .....

- Compatible with most 3.5mm and 2.5mm speaker mic accessory ports
