## Clear Radio Communication for Education/Schools

Two-way radios are efficient and professional communication solutions, perfect for keeping the staff of schools connected. CavCom carries two-way radios for **school buses and campuses**, as well as a wide range of accessories to improve your communications system.

Whether you need to upgrade your existing system or create a customized solution from the ground up, you'll always find the best partner with CavCom! Contact us today, and we will make sure your new radios can easily be implemented into your existing infrastructure or design and install a new complete new system that fits your needs.

Radios are an essential tool for real-time communication in schools, especially during emergencies.

Does your system have:

- Complete Campus Coverage?
- Communication with Transportation Team?
- The Ability to Send Emergency Alerts?
- Sufficient Talk Groups for Staff?
- The Ability to Connect with Other Schools in the District?
