

TeamTalk™

HAZMAT HANDS-FREE COMMUNICATION SYSTEM

TeamTalk™ is a revolutionary new technology that is transforming the way HazMat teams communicate down range. TeamTalk™ gives an entire entry team the power to communicate live, hands-free, in conference-style, **WITHOUT** transmitting over the portable radios. When communication to/from command via the portable radio is critical, the RadioLink™ PTT provides that vital link.

- Connect your entire entry & backup teams
- Equipped with extreme noise-cancelling capabilities
- Works with all suits and any type of respirator
- Compatible with several two-way radio models
- Operates independently of your SCBA ensemble
- Use at non-HazMat related events (concerts, sporting events, racing, etc.)

*FCC License-free Communication • No Base Station Required • Convenient USB Charging • Range Up To 1,000 ft
Available two-way radio integration • Field-replaceable battery and antenna • Available drop-in charger*

TeamTalk™ T-9

- Two separate talk channels
- Up to 9 full-duplex users
- Unlimited PTT users
- IP67-rated water and dust resistant
- 12-hour battery life

RadioLink™

- Allows T-9 users to communicate over a two-way radio via PTT
- 30-hour battery life
- PTT button ideal for in-suit applications

Talk Through Your Ears®

- Microphone and speaker located in earpiece
- Microelectronics provide enhanced speech clarity
- Compatible with any respirator, any suit
- Superior in-ear earpiece retention

Companies Choose CavCom as their **Hearing Protection and Communication Systems Provider**

- **EXCELLENT CUSTOMER SERVICE:** CavCom customer success is our #1 priority. Each customer has a dedicated account manager to assist in long term program management and growth.
